ARMIES SUSPEND OPERATIONS. MUKDEN, Oct. 20, 1:35 p.m.—{By Asiatic Cable.] The hostile armies today have been concealed from view of each other by a dense fog, in which it has been impossible to make out objects at a distance of 100 paces. Under such conditions, only unimp tant operations are possible, such as surprises and ambushes. Possibly, were the roads in better condition, the fog might favor movements of ected points, but without question oo dangerous, and so everything has been quiet on the front today. Conserva-tive estimates place the Russian casu-alties at not less than 25,000. Probattes at not less than 25,000. Probably many more dead are on the field in places not yet searched. The Japanese report their total casualties at a little over three thousand killed and wounded. The principal Russian casualties cocurred in determined counterattacks against each village captured by the Japanese. The Russian attacking parties were in many cases entirely annihilated.

For the first time, the Russians have met the Japanese on an equal footing, not having strong defensive positions to depend upon and for the first time they attacked the Japanese in their own trenches. The Russians everywhere fought bravely, but were unable to drive the Japanese out or to hold their own positions against fierce charges. Almost in every case, the Russians retired from their positions at the first charge, then made repeat

attempts to recapture them.

ST. In this connection, attention is called to the repeated reports of Russian correspondents encountering Japanese scouting parties in the mountains discussed.

—The Novoe Vremya this morning, deprecating the renewed talk of foreign intervention in the Russo-Japanese War, says:

"Such talk, if based upon the fact that now and again the voicing of an urgent desire for peace is based in Russia, must reflect the marvelous ignorance of or indifference on the part of foreigners to Russia's true international condition. The fact is that in Russia, as in other countries, there are several parties; two of these want peace—the extreme reactionaries because they constitute what was known Russia, as in other countries, there are several parties; two of these want peace—the extreme reactionaries because they constitute what was known in the United States during the Spanish-American War, and in England during the Boer war, as 'peace at any price men,' and the ultra radicals, because they are in favor of a humiliating peace which would weaken the present government. But these parties are insignificant beside the great body of moderate progressives, who wish to see Russia's interior economic capabilities developed to their fullest extent and who realize that only through a decisive Russian victory in the Far East can the wound be healed, not plastered. Russian victory in the Far East can the wound be healed, not plastered. Russian has the opportunity for interior development on which their heart is set."

The Russian's authorities have been unofficially assured that the report that the United States contemplated tendering good offices in the interest of the restoration of peace in the Far East is untrue. The assurance was received with satisfaction, although the report had not been given credence in

"The Philippines should not be a party issue, and the action of both Republicans and Democrats' in refraining from reviewing the story of our acquisition of them is cause for a feeling of satisfaction. The problem is larger than any party."

acquisition of them is cause for a feeling of satisfaction. The problem is larger than any party.

"Democratic principles of government must be considerably modified when the people to be governed have the racial qualities, traditions and history of the Filipinos. The difficulties of the problem we are only now learning to appreciate, and until the conditions are better known, we should be less prone to destructive criticism of the pioneer service now being performed.

"The Filipinos are incapable of self-government; in their affairs they are managed by a few leaders. They have not yet cultivated a sense of fair play and tolerance for those who differ in opinion. They are child-like and do not know what is best for them. Independence is their cherished ideal, and that they may ultimately realize that ideal is, I believe, the unexpressed purpose of those who have undertaken the tutelage of these peoples."

Dr. Atkinson was followed by W. Loon Pepperman of the Bureau of Insular Affairs of the War Department, who said in part:
"We speak of the Filipinos. The

ter than barbarians. It is safe, to say the truth will be found somewhere hetween the two extremes.

"The people of the Philippines consist of: First, the dwarf Negritos, the aboriginal race of the archipelago, almost the smallest people on the globe, who number about thirty thousand, and are migratogy in their babits second, the Igorrote, a fine race of agricultural barbarians, with well-developed figures and possessing great strength; third, the Tagalos, found mostly on the Island of Luxon, the one race which has acquired from the Spanlards much of what civilisation the latter had to impart; fourth, the Moros, who were never more than nominally under Spanlash soversignty and whose faith and culture remain practically unmodified by European influence. The last three races are all of Malay extraction. These divisions suggest three general separations—the non-Christian tribes of the interior; the Christianized tribes who accepted Spanish rule and the Moharamedan Moros, whose faith was little changed by contact with the Spanlards. The insular government, recognizing these three broad distinctions, has provided a government adapted to the needs of each.

"The problem of the savage races

The problem of the savage races of the Philippines is not the same problem we have to meet in this country among the Indians. With the exception of the Moros they are not particularly warlike, and do not combine in large numbers for effensive purposes. Most of them have welcomed the school teacher among them and in time it is hoped they will take on the school teacher among them and in time it is hoped they will take on the habits of civilization."

After describing in detail the general form of government under which the Philippines are now controlled, Mr. Pepperman continued:

"It will doubtless be a surprise to many to know to what extent the Filipines have voice in the present government of the islands. Without going into detail, it may be stated that while there are about fifteen hundred Americans in the civil service of the general government and about twenty-five hundred Filipines in the general government service, there are only 100 Americans and over 15,000 Filipines in the provincial and municipal governments. This does not include teachers in the educational department, of whom 1000 are Americans and upwards of thirty-five hundred are Filipines.

"What has been done in the islands has been accomplished by the most careful consideration of the good of the people and the growth and development of the race; but the commercial and material prosperity of which the islands are capable cannot be brought about without additional Congressional legislation.

"Whatever may be thought about the political future of the Philippines, or their relation to the United States, it is a matter of great importance both to Americans and Filipines that the economic prospects of the archipelago should be determined. If this could be done there would be less unrest there, and many things now hard to deal with would find their own solution. The real issue at this moment is not what to do with the political future of the Philippines, but what do do for them.

Brig. Gen. G. A. Goodale followed Pepperman. Gen. Goodale, who was in

ment. It was in accordance with this resolution that an executive proclamation, on July 25, 1901, established free-trade relations between Porto Rico and the United States. Through the establishment of an equitable and elastic revenue system, the finances of the island were thus placed upon a secure foundation.

The present financial status of Porto Rico compares favorably with that of any locality in the United States; indeed, with any similarly-circumstanced community in the world. Without a dollar of funded or floating insular indebtedness, with sources of revenue that may be expected to meet the requirements of a reasonable and economical administration, with special funds, of more than \$1,500,000—the firm basis of a secure insular economy may properly be said to have been laid. The financial reorganisation of Porto Rico means that the burden of taxation upon the real economic life of the island is less today than at any time in its history; that the great bulk of its 1,000,000 souls are entirely exempt from taxation and subject to moderate excises only, to the extent of their injurious or luxurious consumption; that coffee, tobacco and fruit lands—the great mainstay of its people's life—are paying less taxes by half than before the enactment of the revenue act; that through the operation of a generous exemption clause, thousands of little patches of untilled soil are being brought into civilization and a sturdy peasant proprietor class is being developed; and, finally, that having enacted and put into operation an adequate system of public revenue, Porto Rico derives not only the advantage which comes from sound public credit, but receives the stimulus and reaps the harvest of free trade with the United States.

A descent to particulars gives even more striking returns. Of the \$2,000.000 ayear that the insular government spends \$1,500,000, or 75 per cent., represent revenues écustoms duties and excise taxes) that in every part of the United States accrue not to the State, but to the Federal treasury.

W. H. Armstrong of Hawalia, discussing the evangelical mission from America to Hawali in the year 180, said that the native race is no longer a factor in Hawalian maiters except in its abuse of the elective franches unwisely given it by Congress upon the analysis of the elective franches unwisely given it by Congress

He thought that Hawali would in the end be filled with a large native-born Asiatic population, which will dominate the community. These will be native-born Asiatics, speaking the English language, educated wholly in American schools and colleges, ignorant of Asiatic habits, knowing only American literature, saluting only the Pederal flag: a great community of American-Chinese, and as American in thought and the conduct of life as if born within twenty miles of Bunker Hill.

(BY THE ASSOCIATED PRESS—A.M.)

NEW YORK, Oct. 20.—The local agents of the Spanish royal mail steamer Buenos Ayres, which has been reported more than three days overdue at Havana, said today that they feel no apprehension regarding the vessel's safety. That she is overdue is not at all remarkable, in view of the extremely severe weather which has prevailed for several days along the southern coast, they say.

When the Buenos Ayres sailed from this port October 13, she had on board 201 passengers. Among them were fifteen Spanish toreadors, bound for Vera Cruz, who were to take part in the annual championship buil-fighting contests in large Mexican cities.

It is estimated that of the amount already sold on eastern account, not over one-third has been forwarded. Efforts have been made to secure water transportation to the eastern seaboard, but these have failed, owing to the lack of available tonnage.

There is practically no export business at present quotations. Liverpool values have declined steadily in the face of the strength maintained by the American markets, and the stiff rates asked by the combine of shipowners precludes any possibility of profit in this kind of trading.

LOSSES THROUGH SCALPERS.

FORT MONROE (Va.) Oct. 20.—[Exclusive Dispatch.] The aggregate annual losses of the railways of the United States through the operations of ticket scalpers is estimated at \$10,000,000 by the Railway Protective Bureau. This estimate developed during a discussion of the subject at the convention of General Passenger Agents which adjourned today. It was stated in Chicago that at one time during 1903, scalpers took from railroads revenue amounting to more than \$1,000,000, and it also developed that the efforts of the Protective Bureau to check ticket-scalping are futile and the evil is on the increase.

scaiping are fulls and the evil is on the increase.

It is alleged that A. Ottinger of San Francisco is under the protection of some of the most powerful railway systems of the country. This condi-tion greatly hampers the work of the bureau, which has as yet, not been able to break up the system that has enabled Ottinger to secure a string of scalping offices across the continent.

With a view to preventing the enforcement of an immature and defective scheme, the German Minister, Baron Mumm von Schwarzenstein, though cordinally welcoming the general principles of the act, endeavored to obtain a postponement of its operation, so that opportunity might be given for its reconstruction. Up to this date, official sanction for such postponement has not been obtained, but the correspondent of the Associated Press learned today that the British Minister, Sir E. M. Satow, has been instructed to endeavor to have the operation of the act deferred.

There is a possibility, therefore, that the act will be reconstructed. It is considered on all sides that it would be much better to recast the act on lines which would be acceptable generally than to precipitately enforce an unsatisfactory measure, especially as there is no pressing urgency for such enforcement.

night, Sergt. Tooley, K Troop, Fourth
United States Cavalry, was shot and
killed in a house of ill-repute and another member of the same regiment,
whose name is not yet known, was
dangerously wounded. Their assailants
were members of the First Squadron,
Ninth United States Cavalry, colored.
Within an hour after the shooting the
house in which it took place was fired
by a mob of 100 infuriated soldiers, and
was burned to the ground.
Early last evening, about two hundred and fifty members of the Fourth
Cavalry, which is to relieve the Ninth

Shortly after 11 o'clock several members of the Ninth Cavalry attempted to force their way into a notorious resort known as "The Adobe." Members of the Fourth Cavalry and Fifteenth Infantry, who were in the place, resented the intrusion of the colored men and a ferce fight followed. SHOT INTO THE CROWD.

SHOT INTO THE CROWD.

The men quarreled for some time and a large crowd of both whith and colored soldiers gathered in the street in front of the resort. The efforts of the guard to subdue the rioters failed. Finally, three negroes left the holms and deliberately fired into the crowd.

One shot killed Sergt. Tooley of the Fourth Cavairy, and a second fatally injured another member of the same regiment. Other shots were fired, but fortunately no one else was hit.

Members of the Fourth Cavairy became so incensed at the killing of their comrade that they set the house after. The flames spread to the adjoining house, and both were destroyed, the inmaises barely escaping with their lives.

The whole town was in an appear.

[BY THE ASSOCIATED PRESS—P.M.]

FORTLAND (Or.) Oct. 20.—The attorney of Charles W. Walton, the seventeen-year-old San Francisco youth accused of highway robbery and assault to commit murder, today filed an affidavit with the District Attorney, sworn to by Walton, in which the accused states that when his mother was in this city recently, two men sought an interview with her, and one of them swore that it was he who had held up an electric car in the suburbs the night of September 1, and who had shot Police Officer Nelson in the fight which followed the attempted robbery. The alleged confessor stated that young Walton dropped off the car just at that moment, and that he was mistaken for the real robber and beaten by the car crew and the policeman, and captured. The affidavit was filed for the purpose of securing a continuance of the trial until the next term of the court.

The President's Panama Policy Again Assailed.

Senator Culberson Thinks He Can Kill the Canal.

### Parker to Talk at Rosemount. Wall Street Betting.

(BI THE ASSOCIATED PRESS—P.M.)

NEW YORK, Oct. 20.—Under the auspices of the Reform Club, a Democratic mass meeting was held here tonight at Carnegie Hall, at which Senator Charles A. Culberson of Texas, Gov. Montague of Virginia, and Borough President Martin W. Littleton of Heroskyn were the speakers, Senator Culberson devoted the greater portion of his remarks to a discussion of the Panama canal, going into details of the revolution by which Panama became an independent state and the subsequent negotiations which resulted in the canal treaty. Alluding to what he termed "the spirit of lawiesaness which led the President into this disgraceful affair," he declared that the transaction, "above all others in his career, strikingly typifies his contempt of all legal restraint and arbitrary government." Continuing, Senator Culberson said: (BY THE ASSOCIATED PRESS-P.M.)

Continuing, Senator Culberson said:

'Continuing, Senator Culberson said:
'Choosing an occasion upon which
se could appeal to the avarice of the
scople and thus temper their spirit of
resistance to usurpation, he respected
seither legal bounds nor national good
aith, and as the incident serves to ilustrate not only his imperious and
tespotte nature, but the danger to the
sourchy which is involved in his elecon, it is well to understand it, for,
seide a want of general information
upon the subject, important facts have

been deliberately withheld from the public."

He then sketched the course of ovents in the passage by Congress of the bill known as the "Spooner law." authorising the canal, and charged the President in his course with Colombia "deflantly violated both its letter and spirit." He claimed that the Hay-Herran treaty, if not nullified by the unanimous vote of the Colombian Benate disapproving it. expired by limitation upon the failure of Colombia to approve it within the time fixed for its ratification. He entered with detail into the legal aspect of the matter, and continuing, said:

"It is astonishing, in view of these of the President with reference to this statute should be placed by himself and his party upon the ground that when he entared into the Panama treaty the time within which he could lawfully deal with that route had not expired."

"It is interesting," said Senator Culberson, "In this connection to read the President's message to Congress January 4, 1904, in which he said 'As events turned out, the question of reasonable turned out, the question of reasonable turned with the enter into the matter at all and yet there, had not been a lapse or re southle time—using the word reasonable in any proper sense—such

istration, in precipitate and guilty haste, anticipated and discounted the time for the revolt.

"It magnified the number and character of the insurgenta, and officers of the government connived at a subterfuge to deceive and corrupt the forces sent to subdue the insurrection. Not satisfied with these illegal and wrongful and discreditable acts, but purposing to complete the intended spolintion, the administration within two days recognized the mock government it alone created and upheld, and within two weeks, in the very midst of actual, though bloodless war, it accepted a session of the territory from a French adventurer who organized the comeptory in the shadow of the national capitol.

capital a session of the territory from a French adventurer who organized the completely in the shadow of the mattonal capitol.

"I accept it as true that the executive officers of the administration did not officially and publicly instigate the revolt in Panama; but that the administration, including the President, privately favored and encouraged the movement, and that this was widely known it susceptible of genometration, and in a matter of this character it was tantamount to committing the government to it. The very atmosphere of Washington was charged with this belief. The movements of the navy, in consonance with the wishes and expectations of the complrators, are inexplicable, except on the hypothesis of sympathy and foreknowledge. The press of the country, whose representatives at Washington visited the State Department and White House dully teemed with suggestions and prophecies of secession, recognition, and a treaty with Panama, from June until November, 1903, without objection or protest or denial from the administration."

Senator Culberson then read the following letter to Dr. Albert Shaw, editor of the Review of Reviews:

Personal (copy.)

WHITE HOUSE,

Washington, Oct. 18, 1903.

My Dear Dr. Shaw: I inclose you, purely for your own information, a copy of a letter of September 5 from our Minister to Colombia. I think it might interest you to see that there was absolutely not the slightest chance of securing by treaty any more than we endeavored to secure. The siternatives were to go to Nicaragua, against the advice of the great majority of competent engineers—some of the most with a site of the majority of competent engineers—some of the most washington.

competent saying that we had better have no canal at this time than go here or else to take the territory by orce without any attempt at getting treaty. I cast aside the proposition made at this time to foment the secena treaty. I cast aside the proposition made at this time to forment the secession of Panama. Whatever other governments can do, the United States cannot go into the securing by such underhand means the secession. Privately, I freely say to you that I should be delighted if Panama were an independent State, or if it were made so at this moment; but for me to say so publicly would amount to an instigation of a revolt, and therefore I cannot say it. With great regard. Sincerely yours, [Signed]

mot say it.

With great regard. Sincerely yours, (Signed)

THEODORE ROOSEVELT.

"From the above letter," concluded the speaker, "it is evident that when it was written the President was advised of the contemplated secssion of Pansana, which was set for November 23, 1903, and it is equally evident this information came from an authoritative source, for he considered and cast aside a proposition to foment the movement. While the letter, in some respects, is characteristic of the frankness and courage for which the President is distinguished, it exhibits also his rashness and his contemptuous disregard of the rights of others when his purposes are involved. Writing privately to one who is publicly fomenting secession, his restless ambition creates a distinction between private and public instigation of conspiracy and revolution, and contributes by his name and exalted station to the dismemberment of a republic."

PRESIDENT GAVE IT OUT.

[BY DIRECT WIRE TO THE THEEL!

NEW YORK, Oct. 21.—[Exclusive Dispatch.] The Tribune says:

"Perhaps the fuse was faulty, peradventure the time cap was, or maybe the dynamite was part of condemned stores—whatever the reason, certain it was that Senator Charles A. Culberson's mysterious Pansana bombshell refused to explode at the Democratic meeting at Carnegie Hall lest night. The Senator had been imported all the way from Texas to explode this particular bomb at the meeting which was held under the Reform Club's auspices. Unfortunately, like all other deadly infernal machines that have come from the Democratic dynamite factory of late, it proved to be nothing more deadly than a ten-a-penny firecracker, and a half-spent one at that.

"While the eyes of certain intelligent Democratic voters protruded at least

ing more deadly than a ten-a-penny firecracker, and a half-spent one at that.

"While the eyes of certain intelligent Democratic voters protruded at least half an inch when they saw the gory leaflets containing the deadly extract from the Texas Senator's speech, reproducing the personal letter from President Roosevelt to Dr. Albert Shaw on the Panama affair, the more intelligent believed at once that the Senator had sounded a false alarm.

"As for Dr. Shaw, in a talk with a Tribune reporter over the telephone, after the meeting, he exposed the Democratic value of the document by the simple statement that it was given out by the President himself, nearly a year age, If the Sanator from the Lone Star State falled somehow to cause the sensation he had looked for, he was rewarded for making a long journey by two or three nice bursts of applianse."

NEW YORK, Oct. 29.—[EXCUSIVE Dispatch.] Senator Scott of West Virginia, in an official statement issued from national headquarters today, said that President Roosevett will beat Parker more overwhelmingly than Grant did Greeley; worse than Mo-Kinley beat Bryan in 1896 and 1900; that New York will give Roosevett from 50,000 to 75,000 plurality, and that all doubtful States except Maryland will vote against Parker. Here is Scott's statement:

"New York State will remain in the Republican column. I do not believe the Democratic majority for Parker south of the Bronx will exceed 90,000, if it be so large, while Roosevelt's majority up State should be at least 150,000, and it may greatly exceed that figure. New Jersey and Connecticut are as safely Republican as Massachusetts. There is not a doubtful State in that group known as the Middle West, and in the group I include also Indians, which will give Roosevelt 20,000 majority, while the Pacific Slope, California, Oregon and Washington, will register a record-breaking majority.

Young Men's Democratic Club of Cook County.

Cockran confined his address, which lasted for nearly two hours and was generously applauded, to a discussion of the tariff question, as applied to usual conditions. He was frequently met with interruptions from the audience, all of which he answered with readiness and good nature. A decided feature of the meeting occurred while Cockran was denouncing the protective tariff policy of the Republican party as inevitably tending to a rise in the price of commodities and a fall in wages. ley?"

Considerable cheering fellowed, Cockran waited until the applause subsided, and then said: "I supported McKinley in 1896 because in another public question he took such a position that it was necessary for me to support him, in spite of his views on the tariff. But after the contest was decided, Ma. McKinley and his associates sought to betray the gold standard by sending a commission to Europe to establish bimetallism, because they thought there was as much profit in treason as in loyaity."

Tremendous applause followed Cockran's retort. The speaker further charged that the gold standard was not firmly established until the British Cabinet had refused to accede to the proposals of the bimetallic commission to open the mints of India to the colnage of silver.

Cockran devoted much time to the Shipping Subsidy Bill, which he said would become law if the Republicans were successful.

NEW WAR DEPARTMENT ORDER

AND SAN FRANCISCO. All Posts in the Department of the

Columbia, Together With Four Forts in Department of Dakota, Will Receive Supplies from the Bay City.

SAN FRANCISCO, Oct. 20.—Quarter-master Maj. Devol said today to a representative of the Associated Press that the orders he has just received from Washington, regarding supplies for the army, will greatly increase the importance of the army post in this city. According to an official communication from the War Department, "all posts in the Department of the Columbia, including Alaska, California and the Colorado, together with Forts Assinationie, Harrison, Missoula and Yellowstone in the Department of Dakota, will be supplied from the depot at San Francisco."

"This," said Maj. Devol, "includes approximately 14,710 men, not including those in the Philippines, who will doubtless, also obtain their supplies here. The order applies only to clothing and equipage, which, however, are very important factors. The Army and Navy Register of October 15 says: "The posts in the various departments will hereafter be supplied from the depots at Philiadelphia and San Francisco, and arrangements have been made for stocking these with such articles of clothing and equipage as may be needed, in addition to the supplies available, taking one year's allowance as the basis of the calculation."

"We already are preparing," said Maj. Devol, "to lay in a big stock, and, if the clothing and equipage needed can be manufactured here, we will be glad to encourage home production." (BY THE ASSOCIATED PRESS-A.M.)

JAPAN'S COMPLAINT.

WASHINGTON, Oct. 20.—As indi-cated in the Tokio dispatches, the Japated in the Tokio dispatches, Minister anese government, through Minister Takahari, has entered a formal protest against the use by certain bodies of Russian troops of Chinese clothing, of knessal roops being specified in the complaint. The State Department, having assumed the care of Japanese having assumed the care of Japanese interests, has transmitted the Japanese complaint to Spencer Eddy, accretary of the American Embassy at St. Petersburg and charge in the absence of Ambassador McCormick, for presenta-tion to the Russian government. It is understood here that the Chi-

nese clothing was not used by the Russian troops to deceive the enemy, but simply to make good the failure of the Russian quartermaster department to supply much-needed warm clothing upon the sudden advent of cold weather in Manchurfa.

G. Adams, formerly of New York, at San Francisco. With the tragedy ends a career that passed through varied phases, from that of the beloved rector of a Bourishing congregation to that of a murderer of a man who had attempted to interfere when Adams was striking his own daughter.

Ten years ago Adams was a minister in an Episcopal church in New York. He was of brilliant mind, and seemed to face a great future. Then whisperings of misconduct were heard, in which drink played a prominent part, and finally he was deposed from the ministry. From then on Adams's life was one chapter of disgrace, until it reached the climax when he shot and killed Dr. Jessup. The bitterest portion must be tasted by Adams's sister, Agnes, who lives in this city, who last night heard from his son that he was a suicide.

MR. J. G. HARRIS, Civil War Veteran. Comrade Harris's letter is of interest and encouragement especially to elderly people suffering from chronic stomach irregularities, because he is a very old man and was literally shot to pieces in the War. He writes;

CURED BY "I am an old soldier; was an officer in General Gordon's own regiment during the Civil War, and was in bad shape and at times would not retain the simplest food. I grew thin and weak. My wounds bothered me a lot. Medicines seemed to have little effect. I was discouraged. Finally doctor prescribed Duffy's Pure Mait Whiskey. My stomach kept it down, and I grew stronger. In two months I was cured; could digest anything, and am today a strong, hearty man, as you can see from my picture.

## Bargain-Friday No. 254 Remnants-of Course Odd Lots and Broken Lines

### The "Bargain-Friday Habit" is Worth Cultivating

If you haven't already acquired the habit of doing a large portion of your trading on Bargain-Friday, you've overlooked some of the grandest opportunities to economize imaginable. These Bargain-Friday Sales being confined as they are largely to remnants, short lines and broken assortments place large quantities of worthy, seasonable merchandise within your reach at considerably less than the market price. Remember, it's the best selling lots that are first broken and the most popular piece of goods that is first sold down to a remnant. This week's list of Friday bargains is particularly strong and attractive. Let us again suggest that you come early, as the shortest lines are marked at the lowest prices and these sell first.

### LOCAL POLITICS. TO CAPTURE POLICE FORCE.

Height of Ambition of Union

Fennessy Expects Place on Police Commission.

Terms on Which Gang Agrees to Support Kern.

In the agrogant assumption that they will gain control of the City Hall in the coming municipal election by electing Kern Mayor, Dictator Fennessy and his hirelings have already commenced to parcel out patronage—and his olding they have tipped their hand. Fennessy is at the head of a gang who have gone into the municipal campaign to back Kern with a view to calning control of the police and fire departments.

gaining control of the police and are departments.

"Give us the police and fire commissions and you can have the real." These are the terms of the compromise proposed by Fennessy and his gaing to Kern's managers.

The Damascus blade that has guarded the throat of the city from the hand of the walking delegate has been the police force. It has proved a check to lawlessness and has been a bulwark of government under the law. Jimgray, Lembiddle, Hay, Fennessy and the lawless contingent that has followed in their swake have been powerless to make progress against it.

Now Diotator Fennessy and his following have concocted a scheme to capture the Police Commission and by one hold stroke to place the police force at their mercy.

There have been times when the fire

capture the Police Commission and by one hold stroke to place the police force at their mercy.

There have been times when the fire department has, in the opinion of the walking delegate, been gullty of per-nicious activity. Not that the agitators, themselves have been prone to kindle the torch; they are too careful of their own skins to do that; but just as Typographical Union tribute money is now buying delegates for the union's choice for Mayor, so has tribute money in the past rewarded araon, if the tales of the members of the order themselves are to be believed.

Fennessy has reserved for himself a place on the Police Commission. He has three other places to parcel out to the agitators that make the best showing in "delivering the goods."

At the time the Civil Service amendment was adopted two years ago the electors of the city thought it was broad enough to cover the police department. But the City Attorney has since decided that the Police Commission can discharge members of the departments, and that the Civil Service is powerless to reinstate them. True, an amendment remedying this defect has been included in the charter amendments to be voted for at the coming municipal election; but those amendments must be ratified by the State Legislature before they become a part of the city darter. That, would mean at least two months' delay after the dist of January and, during the integrim, Fennessy and his commission of agitators could discharge every member of the police force who would not do their bidding.

The game holds good in regard to the fire department.

Fennessy yesterday afternoon talked it ever with Howton, the spook Councilman from the Sixth Ward, which in

PUT OFF TRAIN,

Miss E. M. Richwood lies prostrated at the home of her brother-in-law, E. H. Mack of No. 515 Casco street from the shock of having been put of a Southern Pacific train at Colton yesterday. Miss Richwood claims that she bought a first-class ticket for Charleston, S. C., at the city ticket office of the Southern Pacific Company, and that she paid full fare for it. The conductor, on inspection, claimed that she had a scalper's ticket and put her off the train at Colton.

Another Labor South

and that she paid full fare for it. The conductor, on inspection, claimed that is he had a scalper's ticket and put her off the train at Colton.

Another Leber Saver.

An ingenious German, and a professor at that, has devised an apparatus by which a person lying in bed in a room electrically lighted can touch a button and tell what time it is with a scarcely a movement of the body. There is a lamp that the button governs, and when the latter is presset the lamp throws on the ceiling of the bedroom an optical representation of the watch lighted by electricity and with the time correctly indicated.

Of course, this is a convenience. No man likes to get out of bed at 2 o'clock in the morning because he's afraid he will be too late for the 7 o'clock train. No man wants to tumble over his shoes in the dark and bark his shims against the rockers of his wife's sewing hair, and burn his fingers with a stubborn match, and then discover that watch has stopped. It is aggravating and conductive to strong language. How much easier it will be to simply, reach up a ready thumb and bump the professor's button.

But just think what a telltale thing this electric chronometer will prove under ocertain circumstances. Think of a reveler toiling carefully up the stairs with his shoes in his hand. Think how he will fancy he is safe and unobserved. Then imagine his feelings when a somewhat raspish voice galls out: "Four o'clock george! What does this mean?" And the unhappy man will look up and see the telliale hour—handwriting on the wall. That's where this Germas invention will not meet with popular favor. There is such a thing as gesting too familiar with time at untimely times.

Catarrh of the Stomach.

Effectual Cure for It.

Catarrh of the stomach has long seen considered the next thing to incurable. The usual symptoms are a full or bloating sensation after eating, accompanied sometimes with sour or watery risings, a formation of gases, causing pressure on the heart and lungs and difficult breathing, headaches, ficiale appetits, nervousness and a general played out, languid feeling. There is often a foul taste in the mouth, coated tongue and if the interior of the stomach could be seen it would show a slimy, inflamed condition.

would show a slimy, inflamed condi-tion.

The cure for this common and ob-stinate trouble is found in a treatment which causes the food to be readily, thoroughly digested before it has time to ferment and irritate the delicate mucous surfaces of the stomach. To secure a prompt and healthy digestion is the one necessary thing to do and when normal digestion is secured the catarrhal condition will have disap-peared.

when normal digestion is secured the charrhal condition will have disappeared.

According to Dr. Harianson, the safest and best treatment is to use after each meal a tablet, composed of Diatase, Aseptic Pepsin, a little Nux, Golden Seal and fruit acids. These tablets can now be found at all drug stores under the name of Stuart's Dyspepsia Tablets and not being a patent medicine can be used with perfect safety and assurance that healthy appetite and thorough digestion will follow their regular use after meals.

Mr. R. S. Workman, Chicago, Illa, writes: "Catarrh is a local condition resulting from a neglected cold in the head, whereby the lining membrane of the nose becomes inflamed and the poisonous discharge therefrom passing backward into the throat reaches the stomach, thus producing catarrh of the stomach and the point of the stomach without cure, but today I am the happiest of men after using only one box of Stuart's Dyspepsia Tablets. I cannot find appropriate words to express my good feeling. I have found fiesh, appetite and sound rest from their use."

Stuart's Dyspepsia Tableta is the safest preparation as well as the simplest and most convenient remedy for any form of Indigestion, Catarrh of stomach, billousness, sour stomach, heart-burn and bloating after meals.

Winning Side—A Prosperous Peace and the Navy-Judge w's Offense-What Nebraska do-Bucking Democracy.

GED AND EDITORIALLY PRESENTED BY THE

Judge Parker's Offense.

Secretary Taft's exposure of the character of Mr. Parker's Philippine arithmetic is an incident midway between the humorous and the pathetic. In his speech of acceptance, Mr. Parker said:

Tom Watson calls the Democratic and Republican parties the Siamese

and the \$850,000,000 said to have been since disbursed will ever come back to us."

At Indianapolis day before yesterday the man who knows what he is talking about corrected the figures of the man who does not know, in this fashion:

Judge Parker's Statement. \$870,000,000
Secretary Taft's statement. \$870,000,000
Grotesque yet painful as is this exhibit, exaggeration is not the most serious charge that must be brought against the Democratic candidate with reference to his treatment of the Philippine question as a political issue in the present campaign.

A heavier responsibility rests upon Judge Parker. The news from Manilia about the revival of agitation by the old insurrectionist Filipinos of the class represented by Sandiko, the leutenant of aguinaldo, shows only too clearly the effect of the reports of Judge Parkers attitude and utterances upon the minds of the radicals and revolutionaries in the islands. Once before, when Bryan stood where Parket stands now, the consequences of such encouragement to fause hopes were reckoused in millions of expenditure and hundreds of American lives.

As a patriot, Judge Parker should seek advice from Luke E. Wright, the Democratic Governor of the Philippines, and not from Carl Schurs.—[New York Sun.

What Nebraska will give a Republican plurality of from 20,000 to 30,000 votes on the electoral ticket this year. This is admitted to me on all sides by Demorats and Populista. Some of the Republicans are claiming bigger figures, but it is to be presumed that an anti-Republican estimate, in such a case, will not err far on the side of exaggeration.

which would not be justified by similar signs now.

The great preponderance of the Republican electoral vote will be due to two causes—first, the personal popularity of Mr. Rooseveit in this part of the West, where in character and action he is regarded as typlfying the local spirit; and, second, the division of the opposition between two camps. The Populists and the Democrats were unable to fuse on the electoral ticket, and their strength will be separately counted. It is expected that their combined total vote will be not far from 100,000, if each party makes it a matter of pride to induce all its members to stand at the polis and be counted. There seems to be a general impression that the Populists will be found to have a considerably larger membership than the Democrats—perhaps in some such proportion as \$0,000 to \$0,000. Seeking for the basis of this estimate, I am told that a large number of Demograts will you for Roosevelt on personal grounds. But from pretty good sources I hear that a great many Popullists are going to do the same thing, so that phase of the matter appears to be a "stand-off."—[Omaha Letter to New York Post.

The Siamese Twins.

Tom Watson calls the Democratic and Republican parties the Siamese twins. They may look alike, but any one who cannot distinguish between them in any other way may lo so ! y reading carefully Mr. Watson's description of the candidates.—[Chicago News.

The Clothes

HE gentlemen of America want handtailored clothes at a popular price and you can't escape the fact any more than you can avert the coming of eternity. After all the time, the labor, the thought

and the fortunes that have been expended in the effort to convince the people that the ready-to-wear machine made clothes fill the bill, it needs but a touch of the "real thing" to utterly dissipate the effect the manufacturers think they have produced.

HE Atterbury System, which employs the methods of the custom-tailor on an enlarged scale, represents the only sincere and successful effort that has ever been

made in this country to produce the clothes of gentility, which are utterly lacking in the unregulatable traits of clothing bought at a store. There are thousands of men in America who have waited from youth to old age for the redemption of the manufacturers' promise to "do better," but it devolves upon The

Atterbury System to find the way—and the only way—
to appease the clamor of taste. That way is to produce at a popular price hand-tailored clothes that are ready to put on, which possess the style, the swing, the dash, the individuality and character of custom-tailored garments and positively will retain them until the material is ready for the old clothes man. That in brief explains the meaning of The Atterbury System.

Two Day Diamond Jubilee

**Our First Anniversary** Celebration Begins Today

Just one year ago today, our doors were opened to the public of Los Angeles. From the first day there has been a gratifying patronage, which warrants us in believing that our efforts to please the public have not been in vain. Today we begin to celebrate our first Anniversary by offering many "specials" at actual cost to us. We invite every one in Los Angeles to share in our grand cele-bration and take advantage of the various items we offer. Most important of all these offerings is—

100 FINE DIAMOND RINGS AT COST

Selected from our regular stock and now priced at from \$5 to \$1000 each. Our collection of diamonds unquestionably the best selected in Los Angeles, and when you consider that diamond prices have advance several times in the past year and are still tending upward, offering them at actual cost to us, is a proposition that would not be justifiable under any circumstance of less importance than our First Anniversal Celebration. Only 100 will be sold at cost, so if you desire to be one of the lucky number, come early.

400 Day Clock \$10.

Anniversary clock special No. 1. The works are made of heavy gilt and inclosed in a large glass dome. The mechanism of this clock is so perfected that it will run 400 days with one winding. Before we came to Los Angeles, these clocks were sold by other jewelers at \$20. Since the advent of Brock & Feagan's we have established the regular price of \$12.50, but will celebrate our first Anniversary by offering them at only \$10.00.

Handsome Clock \$12

5 Piece Sterling Silver Tea Set \$80 -- Actual Cost

Complete set of 5 pieces consisting of tea pot, coffee pot, sugar bowl, cream pitcher, and waste bowl. The design is remarkably beautiful—the finish perfect—a work of art in its entirety. It is made of the finest sterling silver and would be a credit to the furnishings of the richest dining table. The price at which we offer it, \$80, is the actual cost price to us.

During the celebration we will offer at actual cost to us many other pieces of the highest grade sterling silver for the dining table; such as berry bowls, salad bowls, nut bowls, bread trays, coffee sets, tea sets, bon bon dishes, etc.

DISCORDANT MUSIC:

SUBGLAL CORRESPONDENCE OF THE THESS.

VENTURA. Oct. 10.—There is discordant music in the air. Prof. Bain, who has been the leader of the orchestra for several years, and William Menzel, the new manager by the operahouse, are at swords' points, and the public is holding its breath.

STILES STRICKEN.

Word was received this morsing by 'phone from St. Helena, from Mrs. Stiles, that her husband, Henry M. Stiles, who has been sick at a sanatorium there, suffered a stroke of paralysis and is in a critical condition. Henry Stiles is one of the oldest and best-known men in the county, and one of the wealthiest. He has resided here over thirty years, and owns considerable town and country property.

BEAN COUNTY ITEMS.

The Mound Farmers' Club met at the residence of F. W. Cassidy, with good attendance. For president was elected W. E. Geary; vice-president, Mrs. Neel; secretary, C. E. Randy; treasurer, J. R. Mackenzie. After the business the wives, daughters and sweethearts of the farmers took hold of affairs, and a social time was had. The next meeting will be held at the residence. of Charles Macpherson.

Stephen D. Barry died at his home at Bardsdale yesterday. He was diverse of them J. A. Barry of this city.

The County Convention of Women's Clubs will be held in this city a week from next Saturday.

E. M. Elliott, well known in this city, lost several thousand dollars by the failure in Denver of the Fidelity Bank and Loan Association. Elliott put too much faith in a man named Johnson, who was at the head of the institution.

FOR the creation of a perfect complexion : Appel's Parisian Enamel, Ste. Druggiets.

## THE CITY IN BRIEF.

Mrs. J. A. Castellano, an elderly woman of No. 846 San Julian street, was sent to the Receiving Hospital last night suffering from a fractured forearm, sustained by falling down the steps at her residence. Only a Dream Yet.

Charles Abrats, publisher of Colonia Italia, a local weekly, says he is not perfecting arrangements to issue a daily. It is his hope and dream, he says, to some day convert Colonia Italia into an Italian daily.

Italia into an Italian daily.

Coleman's Larceny.

The case of James Coleman, convicted of the felony of petty larceny with a prior conviction, came up before the Supreme Court yesterday. His attorney, A. D. Warner, Esq., raised the point that forcing a man to plead to prior conviction is not constitutional. The case was submitted.

Building Must Come Down.

The city on Wednesday served notice on Jones, lessee of the grounds at the head of Angels' Flight, that the unsightly buildings recently erected there, and extending out onto the street beyond the point alleged to be covered by the lesse, must be removed within the next ten days.

Tumbled into Sewer Hole.

J. D. Fandon, an old man of No.

J. D. Fandon, an old man of No. 17 Santee street, was nearly drowned in a sewer hole in front of the County Hospital about dusk yesterday afternoon. While walking along the street in an intoxicated condition he stumbled and fell into the open sewer. Employees of the hospital witnessed the accident and pulled the half unconcious man out with the aid of a ladder.

Maj. Carlos A. Rivers, who was for twenty years in the British service, attached to the South African Light Horse Colonial Army, arrived in Los Angeles Wednesday evening from Minneapolis, and intends to make his home hese. Maj. Rivers undertook to ride horseback from Minneapolis to California, for the benefit of his health; but when well out on his journey he had to give it up on account of illness.

San Fernando Water Case.

Representatives of the general committee of the San Fernando Valley ranchers appeared yesterday afternoon before the joint committee composed of members of the Merchanta' and Manufacturers' Association, the Chamber of Commerce and the Municipal League, and laid before them 2the points claimed in support of the ranchers' position in the water controversy. The speakers were Col. Wright, Mr. Oestegarde, ex-Sheriff John Burr and County Supervisor Patterson. No action was taken by the joint committee at this meeting.

Mt. Lowe Case.

The Angels Gold Mining and Milling Company began its suit for lands on Mt. Lowe yesterday morning before A. J. Crodkehank, the Land Registrar of the government. The story of this suit has been related at length in The Times. In brief, the mining corporation is being hitterly opposed by the Mt. Lowe Railway, which insists that other motives than a business desire to uncover mineral beds are behind the "Angels" company. Legrand Friel, civil engineer, was the only witness yesterday.

Mails Still Late.

Mails Still Late.

The local superintendent of mails said yesterday afternoon that there was yet a practical day's delay on most of the eastern mulls. Santa Fémail due to arrive at 6 o'clock in the morning was not in before night, and mail due here Wednesday evening did not reach town until yesterday afternoon. Surplus mail which accumulated en route has now been cleaned up, and as soon as trains arrive according to schedule delivery will be as prompt and immediate as at any time in the history of the office.

Child Study Circles. Child Study Circles.

In the history of the office.

Child Study Circles.

The Child Study Circle of the Grandavenue school yesterday held its first meeting for the year and elected the following officers. President, Mrs. W. H. Wagner: vice-president, Mrs. W. H. Wagner: vice-president, Mrs. O. P. Roller; secretary, Mrs. C. H. Baker; treasurer, Mrs. Ivan Rae. Prof. J. H. Francis, principal of the Polytechnic High School, spoke on "True Education." and violin selections were given by Lorenze Lord and by Messrs. Parker and Wagner. The circle at the Seventeenth street school was addressed by City Superintendent Foshay, upon his recent trip to Rurope.

Yellow Aster Allegations.

The Yellow Aster Mining Company believes it has been imposed upon, and that lands belonging to it have been wrongfully usurped. Yesterday a complaint was filed in the United States court against A. T. Stewart and "Mary Hines, John Doe, Richard Roe and the Dee Fallure Camp Co." None of the parties infringing are known to the complaint says that the names of the others will be uncerthed as soon as possible, A quarts mining claim known as the "Fannie C" is the property affected.

The hit of the evening was a new voting machine invented by one of the members of the association.

It does away with the present "sneaky" way of secret voting.

When a Republican yote is recorded, it causes a hand-organ to play "Star Spangled Banner." If anybody should vote for Parker the machine plays, "Tis the Last Rose of Summer Left Blooming Alone."
One of its attachments is a nutmeg grater for scratching the tickets.

this campaign came on.

It was headed by Uncle Sam, a pretty
Goddess of Liberty and a boy with a

e rooster.
'We are a liberty-loving people,'

"We are a liberty-loving people," said one of the speakers impressively. Cheers and loud applause from all the men present.

Behind came one of the sweetest brass bands that ever tooted, dressed in green and white frocks. They played on tin horns and combs and—hearts. At the conclusion of each selection the leader, who carried a dumb bell and an indian club, gravely pinned up the number of the next selection.

The young men who followed in funny costume, even the gies club from the Y.M.C.A., are passed over here in silent scorn.

With a whoop there burst in the dearest blanketed band of froquois Indians.

"Oh Listen to the Band," played the tin-horn orchestra.
And by intent listening you could hear girls' wild yells.
Their faces were painted in a horrifying manner and twenty Anna Held pompadours were surmounted by Eagle crests. These were the bold, bad Tammany men—all girls.
When the Republican speakers were on the floor, they hissed in a manner almost as ruffianly as a pink tea.
The Columbus Club was a dozen pretty girls in white with military caps and a soft, caressing battle cry.
Behind them came placards of: "Give us a Swallow."

AN EASTERN VISITOR.

A Good Suggestion.

LA PARK (Cal.) Oct. 17.—(To the Editor of The Times:) I wish to call the attention of the City Fathers to the condition of the Los Angeles River bed. In many places it is grown up to willows that should be cleared out. And in the lower or southern part of the city are places where a few hundred feet of wire fence, properly put in against the bank, would save valuable property. The old adage, "A stitch in time saves nine," is a good business proposition.

AN OLD SURSCRIBER. "Teddy's Terrors" rushed in, full tilt.

It was a pretty tough outfit. The leader was a girl desperado with sweet eyes and a fascinating little snub nose, and a big pistol that was swung with the easy recklessness with which one ordinarily handles a live rattiesnake.

The girls wore big somberos and blue shirts and enormous revolvers with beits and holsters.

They were so lawless that the only thing that could check their madness was when some girl's hair started to come down.

At the end of the meeting, when the audience should have peaceably dispersed, they burst through the knots of people with another little squeal and handcuffed L. C. Gates, the Republican speaker.

W. C. Patterson, with some misgiv-

ilican speaker.

W. C. Patterson, with some misglyings, called the meeting to order. In a
witty preface he introduced Judge Curtis D. Wibur to defend the principles
of Democracy. He said that the first
intention was to have W. J. Bryan, but
that Judge Wilbur would take his
places.

"The child is now yours, take her." sald Judge Wilbur to Mrs. W. C. Brain who stood eagerly watching the little tot as she played with its mother's wavy black hair.

## LACK OF GORE FOR THIRSTING EDITORS.

O NLY a ferocious typewriter girl with a gold tooth stands between Editor Lowenthal of the Examiner and a challenge to light a duel aplece with the two bloodthirsty editors, R. H Hay Chapman and Winfield Scott, who desire to shed Lowenthal's gore by the code Virginia.

Chapman and Scott are at present editors and managers of that local journalistic receiving tomb (for dead ones), the Graphic.

John Waistcoat Mitchell, the Sage of Cahuenga (from Virginia, suh!) taught them the code Virginia, and explained how a man is killed with delicacy and good taste.

Editor Lowenthal could get one of the dandiest killings on record, one in each duel, would he only consent to come from the dim recesses behind the torbidding typewriter girl and be challenged.

torbidding typewriter girl and be challenged.

Letter perfect in the code, the two editors have called upon him again and again to demand that the insult be wiped out; but Editor Lowenthal declines to come out and be the eraser. "What!" says Lowenthal, excitedly to his typewriter girl, "I shoult come oud and have it made mit me a murder? No? Ches? I shoult go oud and git me a boomp in my head?"

So each message of defiance sent in by Editors Scott and Chapman has been sent back unopened.

with the glided sozodont has looked him over.

Editor Scott wishes to shed the gore of Mr. Lowenthal on account of having been called by him a blackmailer. Editor Chapman's desire to perforate Editor Lowenthal is on so many counts that Lowenthal is on so many counts that Lowenthal is on so many counts that Lowenthal is on so many for which he had to die.

It should be known that when Lowenthal first arrived from New York to do Tammany politics for Mr. Hearst and subsequently shoot the chutes with Mr. Hearst's paper, there came a banquet. Lowenthal after being introduced by John Waistcoat Mitchell in a burst of hot air, made a speech that was most unhappy. It was, in fact, a bad break.

Editors Chapman and Scott felt it a duty to toast Editor Lowenthal in their public print—that journalistic receiving tomb (for dead ones), the Graphic.

A few days ago, Editor Chapman made the personness.

PACTS IN THE CASE.

FACTS IN THE CASE.

Last spring the City Council passed a resolution to purchase from the firm of Doran, Brouse & Co. 18,000 burrels of oil for 10 cents a barrel at the tanks. The contractor delivered the oil on the streets, charging 25 cents a barrel additional for delivery. Oil producers protested that the city was paying at least 25 cents a barrel more than the cit could be bought for in the open market. When the Council decided to nil the streets instead of sprinkling them, the City Cierk advertised for oil bids. Blunt made a bid of 55 cents at the tanks and Tryon & Brain bid 51 cents of the street.

Egan of Harvard had the best card of the day, his score of 80 beating bogey by two. W. T. West of Princeton pressed the Harvard expert closely, handing in a card of 81.

Limits Rather Few and Far Be-tween Different Effect of Same Kind of Weather in Ballona and Carriton Sections—Ducks at Bear

upon duck shooting in the Ballona and Cerritos sections is very different, and at such times the Ballona brethren usually have the best of it. Northers ruffle the usually placid surface of the old Pacific to such an extent that few birds can stay at sea off Del Rey and Manhattan, their usual mid-day resting place; while the same direction of wind is broken by the Palos Verden hills beyond Point Firmin allowing the ducks a chance to light in the kelp and doze quietly all day. In part this doubtiese explains the difference in the relative sport of these two sections in the same kind of weather.

Limits south of town were few and far between. Robbie Rose killed forty odd on the Cerritos and Gen. Last scored something very near the legal number on the Green Wing, but it was hard work.

The Westminster and Bolsa sections were well patronised by club members, and quite a few decent bags were made, though only the first-class shots were able to do much with the fowl in the lively breeze that was blowing. Duck hunters will have to get along with the local-bred sprigs until heavy weather up north sends in a new supply. There are few teal on any of the southern marshes excepting the Alamitos, and not until a souking rain comes down the coast can many of these dainty little fellows be looked for. The resident sprigs are all in good shaps, but being largely young birds they are not very heavy.

Gus Knight, the veteran San Bernardino sportsman took his old screwstocked mountain howitzer up to Bear Valley for the "first" and with a friend succeeded in killing some nine-ty odd ducks, nearly all sprigs. Mr. Knight says the redheads and canvashacks are not due until colder weather sets in. The ducks at Bear Valley the first day were nearly all sprigs, and very fine, fat birds they seemed to be. The water is low and prospects hardly alluring.

Quali hunters are sorely disappointed, as well as their brethren of the marsh. In many sections the birds have not bred during the summer and a decided scarcity is noticed; everywhere qual

start was just as bad, Marie being given the worst of it, but she finished second.

When they came out for the third heat the judges called Smith to the stand and wald they wanted someone else to drive. He declared he was doing his best to win, and did not have any money bet on the race, but that it was impossible for him to win with Marie getting the worst of the start by his lengths every time. This talk made no difference, however, and McDonald was put up behind Marie. She was given a good start this time and won by a length, staggering, the time being 2:13%. The other horses were all in from struggling against the hard wind. The next heat there was an upset and a runaway, and then when they scored one of the other horses threw a whoe and an hour elapsed before the heat was trotted. During this time Marie recovered her second wind and won the next two heats in 2:11% and 2:12%, both slower than any heat Smith drove her during the year. Smith says McDonald was given even starts, and with these Marie won easily, for she is the trotting sensation of the year. Smith asked for a full investigation, and the next day the judges announced in a Boston paper that Smith was all right, and that there was nothing wrong with the race.

paper that Smith was all right, and that there was nothing wrong with the race.

The following week Smith took Marie to Providence, but there it seems size received no better treatment from the starter than at Readville. When the horses were up together the starter would not send them away, and finally, after six or seven trials, they were sent off to a straggling start. From her position Marie could do no better than third at the finish, the heat being trotted by the winner in 2:07, which was the fastest of the year up to that time. The second heat was another had start, which very frequently results from a big field, and apparently because Smith could not win he was taken down again and replaced by McDonald. Smith says McDonald got none of the worst of the starts and eventually won the race.

One of the judges was the same one who had been at Readville, and the race was investigated for two days. As a result Smith was suspended for the season and McDonald was awarded \$1000 for driving Sweet Marie. No fraud on Smith's part was charged by the judges, but he was taken out just the same. When he refused to pay McDonald \$1000 for driving the race, the judges further considered the matter and without notice to anyone suddenly reinstated Smith and were roasted to a finish by the turf papers, for the investigation had not shown that Smith had tried to job any race in any way.

Then about September 10 Smith took

BOLSA CHICA CLUB.

WILL SELL NO LAND.

At a meeting of the Boles Chica Gun
Club yesterday morning it was decided not to sell any land at present,
but to raise the indebtedness on the
criginal purchase by an assessment of
\$1500 on each of the forty members. A
syndicate offered \$50,000 for 100 acres
of the Bolsa Chica property, lying on
the ocean front. It was proposed to
lay this out into a townsite and place
the lois on the market at once. A
number of shares of stock have
changed hands recently, and among
the new purchasers are H. E. Huntington, and it has been rumored that
the eider Huntington is back of the
syndicate which endeavored to buy the
100 acres. This report was emphatically denied yesterday by a director
of the club. "We feel that our holdings are rapidly enhancing in value
and we turned down the proposition of
the syndicate. No, Huntington is not
back of it and the rumor that a clique
of members is trying to get control of
the Bolsa Chica Gun Club property is
absolutely unfounded." he said.
"There is no freeze-out proposition going on, as has been insinuated. We
do not expect to make any improvements at this time, but simply to continue the club, as it is, as a good place
to rest in and a good place to shoot
ducks."

STANFORD UNIVERSITY, Oct. 18.

George A. Hodge of San Diego won the junior class tennis tournament. In the semi-finals match, C. G. Guyer of Altadena won, but in the finals he defaulted to Hodge. Hodge is the best player in the university at present. This week the doubles tournament of the different classes will be held to decide the teams which will represent each class in the inter-class doubles tournament to be held next week. Saturday the inter-class singles tournament will be held. Next semester the tennis club will endeavor to afford the members of the team better opportunities for practice. To do this it will be necessary to bring some of the leading San Francisco players to the campus, and perhaps to send the team to San Francisco to play.

"The people of my community," says this man, "under the guidance of N. E. Henry, a Tuskegee graduate, have built a schoolhouse known as the Union Educational Industrial School. We first began under a tree, but the rain drove us into a church and finally we had to build a schoolhouse. We have a very good schoolhouse, made of dressed lumber. The school is in seasion seven months. The public money given us is about \$29 for the year, at the rate of about \$7 per month for four months, and we have to supply the rest. We pay our teacher \$28 per month, of which amount \$31 is raised by voluntary subscription among the colored people of the community. The school is on seven acres of land. The land is worked by the students at odd times, and we raised last year cotton worth \$120, which we applied to the extension of the school term, and the improvement of the school property. We have sixty-one children enrolled." Beyond all question, the action of the San Diego union was both un-American and disloyal. Whittier Women.

A large number of the members of the Whittier Woman's Club passed an afternoon with Shakespeare Wednesday, the Shakespeare section entertaining. The feature of the afternoon was an analysis of "Macbeth," by Prof. Herbert E. Harris, under whose direction this section has pursued its work two seasons. Prof. Harris gave a scholarly address, dividing the play into two chapters, the temptation and the explation. The analysis was very carefully done, frequent quotations and the murder scene being given to more clearly brings out the points. Mrs. A. C. Clark, chairman of the section, gave a bright brief introduction, the members of the section—the largest in this large club—gave Macbeth quotations, and musical numbers, by Miss Willams of Los Angeles and Miss Scheuer, were given.

The sessions this year are to be held in the college hall, which has been newly fitted up. Several more sections are to be formed this season, including physical culture, the study of the Bible as literature, Browning, and sociology. th the spicy sie was ren-g by mem-

YOUNG HORSE THIEVES.

FULLERTON, Oct. 20.—The preliminary examination of F. Bustemente, one of the men charged with stealing a valuable horse from W. F. Coulter, was held here yesterday afternoon, and late in the evening he was held for trial, with bonds fixed at \$5000, which he falled to give. Mr. and Mrs. Coulter and others testified for the prosecution. Bustemente testified that himself, Chappo Corona and young Bleecker and Corona will be held next week. Earl Rogers will defend Corona and District Attorney Head will appear for the county, the same as in the present case.

Two men were brought in last night to go on Corona's bonds for \$5000 to release him from jail, but they falled to qualify.

Assemblyman Amerige, who has been seriously ill the past week, was reported better today.

SANTA ANA.

HAND CLAPPING IN COURT.

SANTA ANA, Oct. 20.—Half the population of Laguna Beach was crowded into Justice Smithwick's court today, as witnesses or spectators in an action for malicious mischief brought by L. N. Brooks, against Fred Trefern, C. G. Darling, E. S. Doty and W. F. Putnam, charged with tearing down a house belonging to Brooks and carrying it off. The testimony showed that the ownership of the land upon which the bungalow was standing was in dispute between Brooks and Mrs. Hurd, Mrs. Hurd wanted to occupy the place and, it is said, hired the defendants to carry away Brooks's house one night. The real question as to the ownership of the land or the guilt of the defendants never came to issue, as Brooks and his wife did not agree as to which owned the house, thus failing to substantiate the allegations of the complaint, and the action was dismissed. Considerable factional feeling was stirred up, and upon the order dismissing the action being delivered, Mrs. Hurd's partisans clapped hands and poured out their congratulations to the court.

SANTA BARBARA.

TRIALS AND A FROST. SANTA BARBARA, Oct. 20.—The preliminary examinations of men said to have been implicated in the recen preliminary examinations of men said to have been implicated in the recent robbery of freight cars between this city and San Luis Obispo were brought to a close this afternoon, after having dragged on from the beginning of the week. This afternoon W. E. Lynch, who is accused of having received cigars stolen from the freight cars, was held to answer to the Superior Court on the charge, his bail being fixed at \$1500; and Frank Rixey, who is accused of having stolen five kodaks from cars while employed by the Southern Pacific Company as a brakeman, was also held to answer, his examination being finished at noon. The examinations which closed today, and that of Brakeman Weston, who was held to answer for stealing cigars, have created considerable interest here and the courtroom has been filled at every session. A number of local dealers have handled the stolen cigars at one time or another, and these men followed the proceedings throughout the week with more than casual interest. It is not probable that any more arrests will be made.

DEMOCRATS OPEN UP. KNIGHTS NEW BUILDING.

The Los Angeles Council of this order has launched a building project which gives promise of substantial results, and it is hoped the corner-stone can be laid by prominent Knights during the national gathering. The project is the erection of a \$75,000 building, with store rooms on the first floor and thoroughly up-to-date lodge rooms on the upper floors. Within the past two weeks over \$16,000 has been subscribed for the new enterprise, and there is now at least \$30,000 in sight.

Among some of the notable persons who will be here next June are John Delaney, corporation lawyer of the city of New York; Judge William Teasdale of St. Louis; Judge Richard F. Hayden of Topeka, Kan.; Judge John I. Mullins of Denver; Edward L. Hearm, the Supreme Knight of Boston; Danlei McArdle, deputy Supreme Knight of Chicago; and Danlei Calwell of New Haven.

Not content with planning for exten-Chicago; and Daniel Calwell of New Haven.

Not content with planning for extensive hospitality here, the Los Angeles Knights have sent out a delegation of their enthusiastic workers throughout the East, to kindle interest in the coming assemblage, and other information shows that car-load parties are already been arranged at several points. Those who are now and recently have been booming the Los Angeles meeting through the various Eastern circles of Knights of Columbus are J. J. Bergin, I. B. Dockweller, Dr. E. T. Dillon, J. J. Doran, Walter Rays, Jeseph McDewitt of San Francisco, and Niel Power of San Francisco, and Niel Power of San Francisco. The local Knights also plan to send out a large lot of attractive literature, describing the attractions and the proposed entertainments.

ORDER'S RAPID GROWTH.

DEMOCRATS OPEN UP. The Democratic campaign opened in this city last night with a meeting that was the biggest frost in the histhat was the biggest frost in the history of local politics. In comparison with the great demonstration accorded to Teddy's Terrors last week and the big audience that turned out to hear the Republican speakers, the scattering few who accentuated the Democratic emptiness of the operahouse, and the feeble attempts at a street celebration, were almost pitful. Jud and the feeble attempts at a street celebration, were almost pitiful. Jud Rush and Earl-Regers of Los Angeles, both of whom were advertised to speak, failed to show up, and Arthur Orena, Democratic nominee for State Senator, who was to have made his first public address in the city of his birth, added to the disappointment of his friends by remaining away. The principal speaker was James G. Maguire, who devoted most of his time to a personal attack on President Roosevelt. His attempts to belittle the gallant Rough Riders met with audible exclamations of disapproval.

## FIRE RUSHES NEAR HOME.

Veterans' Quarters Menaced by Brush Blaze.

Range Aflame From Malibu to Sepulveda.

Mountain Conflagration is Sweeping Far.

It looked yesterday as if the forest fires that have been sweeping the foothills, mountain slopes and cañons north of Santa Monica and the Soldiers' Home had run their course. The wind was hushed and the sun's rays fell upon a blesk and desolate scene. At irregular intervals columns of smoke curied lazily over the mountain tops, indicating that far down in the cañons smoldering fires were banked. But with the recurrence of the breeze toward evening the cañons once more began to beich forth their dark clouds, and when night closed in the whole range from Malibu on the west to Sepulveda on the east was aglow. The roaring fames deep down in the gulches shot their barbed points high in air and the entire cloud mass as it swept seaward was lurid.

UP IN SEPULVEDA.

Mrs. John Sigrist of Santa Monica,

UP IN SEPULVEDA.

Mrs. John Sigrist of Santa Monica, whose husband has a bee ranch and summer home up in Sepulveda Cañon, about three miles from the Soldiers' Home, came from the scene of the fire last night, and tells the story of the ferocity with which the blaze is attacking the timber of the cañon. Mrs. Sigrist went to their summer home yesterday afternoon. The fire at that time had not attacked the buildings on their ranch, but before she could reach the house the gale rushed down the guich sweeping the fire along with it and furter progress was barred. The Sigrists lost all their buildings and seventy-five stands of bees. From their ranch the blaze followed the old San Fernando stage road up the cañon about six miles to the summit, where there is a considerable growth of oak, as well as buckhorn, gressewood and manizanita.

CLOSE TO SOLDIERS' HOME.

CLOSE TO SOLDIERS' HOME.

In the vicinity of the Soldiers' Home the smoke was so dense yesterday that the rays of the sun were obscured. Wednesday forencon the blaze crossed Sepulveda Cañon, jouched the Wolfskill ranch and worked its way down toward the cemetery, but did no damage, as any spread was prevented by an army of workers.

After the fire had crossed Sepulveda and climbed the sides of the mountain the Home veterans felt secure until Old Boreas rushing down from the north in fury changed the course of the demon fames. Then down the mountain sides, swifter than the fleetest horse and sweeping everything before it, came the fire. Dense clouds of black smoke rolled threateningly. Then came a burst of red fire leaping high in air and onward and downward tore the wild billows until at dark it was evident the Home was in imminent danger. The fire department was hurriedly called into service and all available men by back firing prevented the flames from getting a foothold.

During the whole evening probably a thousand veterans lined the bluffs and viewed the beauty of the scene of CLOSE TO SOLDIERS' HOME.

Long Beach Contractor Supposed to Have Been Dealing With a Klep-tomaniac—First Month's School Attendance Fifty Per Cent. Increase Over that of Last Year.

LONG BEACH, Oct. 20.-W. H. Walker, a contractor, was visited Tuesday evening by a stranger who wanted figures for a house he contemplated building. Walker compiled, and while the visitor was looking over the estimates Walker changed his coat and vest, laying his watch on the dresser. He stepped from the room a moment and returning found the stranger just leaving, with the remark that he would return next day and make a decision. After his departure the watch was missing. Yesterday the ticker was returned to Walker mysteriously, with a note conveying an intimation that the thief is a kieptomaniac, and asking that no steps be taken to prosecute. Walker will not divulge the name of his visitor and says restitution having been made, the incident is closed.

BRIDE AMONG FLOWERS.

WHITTER, Oct. 28.—Under arches of greenery twined by the hands of the girl friends of the pretty bride, before hundreds of wedding guests, Miss Lillian Jessup, one of the charming girls of this city, tonight was wedded to Albert J. Hiatt, one of Whittier's younger business men.

The bride was attended by Miss Sadie Sharpless, maid of honor, and by Misses Loretta Cook, Bernice Mitchell and Jessie Reynolds, bridesmaids, while Arthur Jessup, her brother, stood up with the groom. The wedding party was preceded by dainty little Mary Coffin, who with a basket of rose-petals made fragrant the path of the bride. The church was decorated with vines, potted paims and blossoms, two arched of green, interlaced with fronds of fern and sprays of smilax making a background at the alta. Here the ceremony was performed by Rev. Levi Mills, a warm friend of the bride and groom.

After the ceremony the bride and groom left for a wedding trip to

THE JUSTICES.

Supreme Court Honored by Bar Association.

Judge Shaw Prettily Raps the Verbose Lawyer.

American Bar May Hold Next Convention Here.

One hundred and twenty lawyers and jurists, seated row upon row. including the justices of the Supreme Court of the State, would ordinarily suggest to the mind of the layman-public a formidable and almost awenspiring array, intrenched against all fancy and frivolity behind a continuous consideration of invulnerable fact. ous consideration of invulnerable fact.
But if there was anything austere about the banquet of the Los Angeles Bar Association in the banquet-room of the Angelus last night—where the above-mentioned gathering considered for some hours an irrefutable fact, a good dinner—it did not appear on the programme as rendered. A pleasanter and more sociable party than these exponents of the law, gathered in professional fraternity, could not be found. The event was the eighth semi-annual banquet of the Los Angeles Bar Association. The distinguished guests of the evening were Chief Justice W. H. Beatty and Association. The Mistinguished guests of the evening were Chief Justice W. H. Beatty and Associate Justices T. B. McFarland, Walter Van Dyke, W. G. Lorigan, F. M. Angelotti and Lucien Shaw.

The features of the after-dinner programme were addresses by Mr. Justice Shaw, who spoke on "Bills of Exceptions," and Juge M. T. Alien of the Superior Court of Los Angeles county, who spoke from the text, "Is Law, as Averred by Sir Edward Coke, the Perfection of Resson?"

A particularly warm greeting was

Averred by Sir Edward Coke, the Perfection of Resson?"

A particularly warm greeting was extended to Justice Shaw by his Los Angeles admirers when he rose to speak, and it was some moments before he could make himself heard.

William H. Anderson, who was programmed to speak on "Law Officers of the State; Their Duties, Responsibilities and Delinquencies, if Any," was unable to be present on account of a legal engagement which called him to San Luis Oblupo.

PRESIDENT HUNSAKER.

Hon. William J. Hunsaker, oresident

Hon. William J. Hunsaker, president of the association, presided, and directed his opening remarks to the subsect of the late meeting in St. Louis of the American Bar Association and the Universal Congress of Lawyers and furists, both of which Mr. Hunsake attended.

"The legal mind in particular seems to be especially afflicted with this tendency.

"Take, for example, the case of an ordinary deed of conveyance. The Civil Code provides that the word grant, in a conveyance of land, implies a covenant against all previous incumbrances or conveyances made or suffered by the grantor. I have never been able to discover that a deed of 'grant, bargain or sale,' as it is called, has any greater effect than this simple deed of grant. But, notwithstanding this short and convenient form of expression for the same idea, we find that the old form of deed, grant, bargain and sale is still in common use. So, by means of this form, people are every day declaring that they have granted, bergained, sold, conveyed and confirmed and do by these presents granted, bergained, sold, conveyed and confirmed and do by these presents granted, bergained, sold, conveyed and confirmed and do by these presents grant, bargain, sell convey and confirm,' to some person a certain tract of land, when they mean, simply, that they have granted the land to the person named.

"Some ardent devotees of verbosity have even gone so far as to search Blackstone and Coke or Littleson for additional words, and have discovered and included those dear old relics, 'enfect,' and 'allene,' in the above category of verbs, and some even greater admirers of verbiage, in order the more emphatically to express the idea, according to their motion, that the thing has been everlastingly done, finished, completed, effected, accomplished, performed, executed, achieved, fulfilled, perpetrated, consummated, and carried out, have added as a sort of flourish a formula applicable to a dierent sort of idea—the words, 'remise, release and forever quit-claim,' and with this termination have no doubt had the feeling that the conveyance was absolutely beyond possibility of attack.

"The rolling of these fine phrases solemniy under the tongue with the

JUDGE ALLEN.

JUDGE ALLEN.
Judge Allen, in referring to Sir Edward Coke's decleration that "law is the perfection of reason," said:
"I shall assume in what I may say tonight that we are to consider Sir Edward's declaration from a twentieth century standpoint, and nos from a point of view three hundred years ago; for it would be presumptuous, in-

cellor Kent has said consists of a collection of principies found in the opinion of sages or deduced from universal and immemorial usage.

"When the lawyer of today speaks of the law he refers to that which is embedied in Constitution and statutes, as well as the remmant of the ancient common law not emasculated by such statutes or mutilated by modern judicial determination. And I take it that tonight we are but to consider whether the law as it is now termed is the perfection of human reason, and not to consider whether or not that which was the law three centuries ago would be today. If in force under present conditions, reasonable, just or right. For it would be å brave man indeed who would undertake to say that that which was regarded as perfect reason in an ancient day must of necessity continue as perfect reason in this generation. As a matter of fact, the premises accepted as sound in that day are today wholly discredited and fail of recognition.

"We may instance the right at common law of the husband to chastise the wife. This was believed to be perfect reason, as justified because the husband was presumed to be accountable to a supreme being for a wife's conduct, and therefore domestic chastisement, as it was termed, was permissible. Lord Coke was safe in that day, under the then existing conditions, to assert that such law was the perfection of reason. But imagine for one moment the condition of Sir Edward's way after asserting that such a rule of law was perfect reason, before the Woman's Parliament in Los Augeles!

"And still another instance: By the common law it was the perfection of reason, and replaced in the corpus of man the missing rib. We will assume that this was perfect reason, then, because Sir Edward has said so. But let me disgress long enough to ask if there be here tonight any married man who has sufficient courage to go to his home and say to his wife that there is only one member of his community, and 'I am it."

"As Americans we are proud of our judicial system, proud of most of o

the practice in the appellate courts upon which so much has been said by the Supreme Court with apparentity so little effect as that of the unnecessary length of bills of exceptions. The bendency to prolixity and redundancy appears to be one of those weaknesses which go to prove the docurrine of total deprayity, which, like original sin, is born in the man, and cannot be eradicated by teaching procept or example, but is only the subject of pardon, condonation or punishment.

"The legal mind in particular seems to be especially afflicted with this that he would get even with his enembles."

that he would get even with his enemies.

"Tou guys," said he, "think you're smart, but I'll beat you all out yet."
Then he confided to his friends that he had secured from Pincus the privilege of opening a pushcart office in front of Pincus's saloon.

"The first cart will be there from 6 o'clock in the morning until the court closes," said Rossy. "I am going to get out a regular peddier's license. On the cart I will have law blanks, law books and other things to sell. I will also have hats, collars, neckties and colar buttons to sell to prisoners who lose their articles when they get drunk. I will also buy old clothes from those who wish to raise money to pay fines. I have secured a phonograph, which will deal out music and attract my customers. You can't beat Rossy, and I'll prove it before the day is out."
